

FCC Audio Guide Accessibility for Cable Television service for Bassett

American Broadband qualifies for a waiver from the FCC that relieves American Broadband of the requirement to ensure that on-screen text menus and guides for the display or selection of multichannel video programming provided by navigation devices that it leases or sells are audibly accessible in real-time upon request by individuals who are blind or visually impaired. Therefore, customers who are blind or visually impaired using American Broadband will not be able to audibly access any of the functions in the display or selection of multichannel video programming via on-screen text menus and guides. Other television providers in your area may offer navigation devices with audibly accessible features. For more information, contact American Broadband at 1-888-262-2661 or by email to customerservice@abbnebraska.com.
