

FCC Audio Guide Accessibility for Cable Television service for Blair, Fort Calhoun, Kennard, Lakeland, Herman, Tekamah, Oakland, Lyons, Pender, Emerson, Wakefield, Wayne, Laurel, Walthill, Osmond, Belden and Carroll

American Broadband qualifies for a partial waiver from the FCC that relieves American Broadband from offering audibly accessible functionality for its two-way video services via on-screen text menus and guides for the display or selection of multichannel video programming provided by navigation devices that it leases or sells in real-time upon request by individuals who are blind or visually impaired. Therefore, customers who are blind or visually impaired using American Broadband will not be able to access some of the two-way service functions, such as video-on-demand, in the display or selection of multichannel video programming via on-screen text menus and guides included in the device that American Broadband leases to you. Other television providers in your area may offer navigation devices with complete audibly accessible features. For more information, contact American Broadband at 1-888-262-2661 or by email to customerservice@abbnebraska.com.
